

## Break In the Hindenburg Line Is Now In Excess of 7 Miles

### GERMAN PRISONERS TAKEN IN ONE DAY NUMBER 10,000

Lens and Queant Occupied by British in Advance of Four Miles on Front of Twenty Miles. Haig's Troops Fighting Into Western Edge of Chemindes-Dames.

### BERLIN ADMITS AN ADVANCE BY ALLIES

(By United Press)

Berlin (via London), Sept. 3.—An advance by the allies west and south of Coucy-le-Chateau, was admitted by the war office today.

Paris, Sept. 3.—4:00 p. m.—The British are fighting into the western edge of the Chemin-des-Dames, having reached Laffaux mill, 6½ miles northeast of Soissons.

The Germans are energetically defending their positions toward Laon. The German rear guard counter-attacked five times north of the Aisne without success.

London, Sept. 3.—A further advance by the British was registered today when portions two miles west of Neuve Chappels were occupied. This is an advance of about one mile at the southern extremity of the Armentiers front.

The British have also occupied Hamblain at the northern end of the Drocourt-Queant front. It is six miles east of Arras, south of the Scarpe river.

With the British Army in France, Sept. 3.—The break in the Hindenburg line above Queant now exceeds seven miles, extending behind Etaing to the north.

Ten thousand German prisoners were taken yesterday. Thousands more swarmed down the road like sheep.

The Germans are running before the first British assault like raw recruits and reforming later, only when masses of their own kind came up in support; Germans screaming with fear as the British reached their first line; Germans leaping out of dugouts and throwing up hands in surrender with the first appearances of the Canadians, were scenes witnessed early in the British attack.

Along the road paralleling the Scarpe, a party of correspondents met such masses of disheartened captives as had seldom been seen since the beginning of the war. When questioned, the prisoners voiced the belief that Germany is beaten.

This does not mean that today's battle is a triumphant parade. On the contrary some of the hardest fighting occurred before the important places in the Hindenburg line were taken.

#### Americans Take a Village

Washington, Sept. 3.—North of the Aisne, American troops continue their advance in the face of vigorous German resistance, General Pershing reported to the war department under date of Sept. 3.

The village of Torny-Forny has been taken, together with nearly 600 prisoners, two large guns and 78 machine guns.

#### Yankee Artillery Active

With the American Army in France, Sept. 3.—American artillery is ripping up the fields, roads, trenches and woods along the enemy line in conjunction with the French who are attacking northeast of Sois-

sons. Rains have ceased and the roads are dry. From clouds of dust long torrents of French troops were pouring forward today.

Stories of Saturday's fighting today brought additional honors to French and Americans alike. French divisions on the right and left of the American units did this brilliant work but during the entire attack the Americans led in the assault.

#### Huns Abandon Famous Line

London, Sept. 3.—The Germans have abandoned the famous Drocourt-Queant line to the British. Queant at the southern extremity of the line, has been captured and Lens further north, is also in British possession. Simultaneously the British and Americans at the extreme northern section of the front, advanced another mile and have occupied Walverghem.

The Canadians stormed the Drocourt-Queant line, Haig announced. He also announced that 10,000 prisoners were taken in this vicinity yesterday.

The evacuation without further resistance of the Drocourt-Queant line put Field Marshal Haig in possession of positions regarded by Von Hindenburg as the most important on this section of the front. This is considered by many as the best holding point on the whole German west front.

With its abandonment, the Wotan line is the principal position now presenting a further British advance. Toward this line the enemy is hur-

### APPROPRIATION BILL NEXT

Approximately 6 Billion Needed Due to Extension of Draft

Washington, Sept. 3.—Plans for a recess of the house from about September 20 until after the November elections so that members of all parties may take part in the congressional campaign are being considered by house leaders. To carry out the program speedy action will be necessary on the revenue bill, which is to come up Friday; the water power bill, on which a final vote will be sought Wednesday, and an army appropriation bill to carry approximately \$6,000,000,000 made necessary by the extension of the draft ages.

### OCCUPY PETROGRAD BRITISH EMBASSY

Bolshevik Troops Shoot One Englishman, According to Reports Received at Copenhagen

### CZECHO-SLOVAKS RECOGNIZED

(By United Press.)  
Copenhagen, Sept. 3.—Bolshevik troops occupied the British embassy at Petrograd and shot one Englishman, according to reports received here.

The incident occurred during the Bolshevik general examination following the murder of the Bolshevik commissioner of interior at Petrograd.

Washington, Sept. 3.—Recognition of the Czech-Slovak as a belligerent government was extended by the United States today. Secretary of State Lansing notified the Czech-Slovak national council that the United States was prepared to enter into negotiations with the defunct regime.

This important action of the government is expected to deal a blow to the Bolsheviks, and to solidify the fighting with the Huns.

### COUNTY COUNCIL IS IN ANNUAL SESSION

Will Return Tomorrow to Make Appropriation For Expenses For Next Year Legal.

### MAY NOT CHANGE BOND LEVY

The county council was in annual session today to make the appropriation of funds necessary to conduct the business of the county next year. The council had before it the budget prepared by the county commissioners. The council will also fix the tax levy for bond purposes. It is expected that this rate will not be changed.

Although the council will likely determine the sums which they will appropriate for the various county offices and departments before adjournment this evening, the members will have to return tomorrow to make the total appropriation legal, because the council can not appropriate more than \$15,000 in any one day, according to a state law.

As soon as the council completes its work, the auditor's office will be prepared to compute the tax levies for the various townships. The township trustees have fixed their

### PATRIOTIC MEET OPENS CONVENTION

Y. P. C. U. Convention Begins in United Presbyterian Church Tomorrow For 2 Day Session

### FLAG WILL BE PRESENTED

Lectures by Noted Foreign Missionaries Will Mark Closing Session of Convention

With the presentation of the Presbyterian service flag as the feature even of the Y. P. C. U. convention meeting tomorrow evening, the initial session of the two day session will assume a patriotic nature.

The opening meeting of the convention will be held in the First United Presbyterian church at 7:30 tomorrow evening with the invocation service followed by the welcome address. "The New Patriotism" will be the subject of the address of the evening, which will be delivered by the Rev. J. S. Hill of Richmond. The address will precede the flag presentation, which will contain thirty-four stars for the members of the Y. P. C. U. of the presbytery who have already been enrolled in the United States army. The presentation of the flag will be made by the Rev. G. L. Brown of Indianapolis.

The sessions on Thursday will be divided into three sections, morning, afternoon and evening and will contain several lectures by noted foreign missionaries who have made a specialty of Young Peoples work in the church.

Following the address by the Rev. A. W. Jamieson D. D., former pastor of the church, the Young Peoples program will be composed of the following numbers: "The Saloon Power and How to Overthrow It," Miss Ethel C. Carithers, Princeton; "Lessons from Bible Characters," Miss Jean Culbertson, Calcutta; "Lessons from Favorite Psalms," Miss Mae Cheek, Rushville; "The Power of the Cross in Latin America," Mrs. Elizabeth Cravens McElroy, Scotland.

In the afternoon the session will open at 1:30 with an address by Miss Ruth Willeford, Springhill, on "Loyalty to the Principals for Which my Church Stands," after which Miss Ellendore Lampton of Milroy will discuss the work which is being done in the home societies. "In Extending Christ's Kingdom," will be discussed by Miss Catherine Carr of Indianapolis and the work to be done in the opening year will be sketched by Miss Martha Woodburn of Princeton. A report on the New Concord convention will be given by Miss Marie Davidson, after which the Rev. A. Campbell Bailey of Fair Haven, O., will deliver the address of the afternoon on "A Good Soldier of Jesus Christ."

The closing session, which will open at 7:30, will be a missionary service with addresses by returned missionaries from India and Egypt. Miss Mary Logan will address the meeting on "The People of Jhelum," after which Dr. L. M. Henry, the medical missionary, home on a furlough from Egypt, will speak of the work which is going on in the country which he left three months ago. The reports of the committees which will be made at the close of the addresses will complete the convention.

—Mrs. John Merz of Clermont, Indiana, has returned to her home after an extended visit with her parents, Mr. and Mrs. Jacob Wollung of Homer.

### ENCOURAGED BY FIRST DAY'S WORK

Canvassers For Members Of Franchise League Meet With Little Opposition.

### WOMEN ALIVE TO SITUATION

County Officials Feel Certain Campaign To Recruit 850 This Week Will Be Success.

The first day of the Franchise League membership campaign in Rush county disclosed the fact that the women of the county are vitally awake to the necessity of their backing the federal suffrage amendment as a war measure.

The canvassers were agreeably surprised when in opening their drive in various parts of the county, they were not met by the petty arguments of opposition on the part of some whom they expected to find uninformed. On the contrary, on every hand they found that the women are alive to the issue and understand its meaning and the importance of their taking the places of the millions of voters who have been sent to Europe to fight for democracy.

One pair of canvassers in the city who began covering their district yesterday afternoon, obtained forty-three members. The remarkable feature of the opening hours of their part in the campaign was the fact that the first forty women canvassed, became members of the county organization and during the entire time which the canvassers spent in their work, only three of those women approached failed to join the organization. In yesterday's canvassing in this city half a hundred new franchise members were enrolled which doubled the former membership.

Following the incomplete reports of the first day's work, the county officials are positive that the drive will be a success in the county and that each township will succeed in obtaining the required quota, both of members and petitioners.

"Rush county women are ready for enfranchisement," declared Henrietta Coleman, county chairman, today, in expressing her gratification over the manner in which the drive in the county opened. "They realize that it is only fair that a government which asks the women to give their all to win a war for democracy abroad should give them franchise as a symbol of democracy at home."

The first of a series of suffrage meetings will be held in the downtown district of Glenwood this evening when a flying squadron from this city will visit the town.

### TO PUT LOAN OVER IN A DAY IS THE GOAL

County Organization Expects to Begin Activities by the Fourteenth of September

### TWO WEEKS FOR PREPARATION

There Will be Sale Department Headed by T. M. Green, and Administrative Department

### WORK PLANNED FOR EACH

Women's Committee Will Have a Larger Share in Fourth Loan Than Ever Before

To put the county over the top on Saturday, September 28, the initial day of the Fourth Liberty Loan drive, is the object of the Rush county executive committee which will begin the pledge subscriptions on Saturday, September 14, two weeks before the date set for the national drive.

In order that the object of the committee may be realized and that the drive will not lag throughout the course of several days and lengthen into weeks, the heads of the county organization in effecting the preliminary drive plan, expect that enough momentum will be gathered in the two weeks before the official beginning to clean up the county's quota in the course of twenty-four hours.

The sales department is under the direct supervision of T. M. Green, who will devote his time and that of his subcommittees exclusively to the making of sales and obtaining subscriptions while the administrative department which is under the direction of Earl H. Payne, county chairman of the Liberty Loan, will keep all records, make clearance, provide headquarters, speakers and supplies. The executive committee will be invested with the authority for the working of the entire organization.

For the convenience of the salesworkers and to assist in efficient and accurate results the entire county will be divided into business divisions, residential divisions and country divisions.

In order that there will be no duplication of work salesmen will alone take subscription. No subscriptions will be taken at the general headquarters, none by Boy Scouts, none by either lodges, societies, churches, stores or clubs although all such organizations are expected to respond loyally to the demands which will be made upon them.

The women of the county have rebanded themselves together in the same splendid union which resulted in the brilliant success of the woman's committee of the Third Liberty Loan, and are under the direction of Mrs. Cora Stewart.

The women will have charge of all woman's organization that are listed under women such as clubs, fraternal societies, lodges, guilds, and leagues. In addition, they shall have charge of private and parochial schools, churches, and all elementary schools. Plans are being made whereby street booths, store booths and similar subscription booths will be in the charge of this department. Two big meetings during the Fourth Liberty Loan have already

## RULING PREVENTS AUTO CASUALTIES

For the First Time Since Motor Season Opened Doctors Missed Sunday Emergency Calls

### SPIRIT OF JOYRIDERS ABSENT

The usual number of casualties from automobile accidents in the county were missing Sunday and for the first time since the weather became such as to place Sunday autoing in vogue, emergency calls were not required of local physicians.

The enforcement of the gasoline conservation measure was such that people who used their machines at all, used them only in a case of necessity and the carefree, thoughtless spirit of "joyriders" was absent from their trips. Collisions were next to an impossibility because there were such few machines in use that it was an unusual occurrence for one machine to pass another even on a country road.

The meetings will be the most pretensions that have ever been staged in connection with any loan movements here and speakers of national reputation will appear on programs supplemented by the presence of the Jackie band from the Great Lakes training station.

That the loan will "go big" and with such force as has never been seen before, is evident from the fact that already numerous farmers have pledged their entire wheat crop for the summer of 1918 in the purchase of bonds.

The executive organization which is headed by T. M. Green, county chairman of the defense body and the general war activities body, is composed of the following: E. B. Thomas, M. F. Lovett, S. L. Trabue and Mrs. A. L. Stewart.

Nine Hundred and Ninety-Eight Announced by War Department, Including 18 From Indiana

### 133 ARE KILLED IN ACTION

(By United Press.)  
Washington, Sept. 3.—The largest number of casualties reported any single day by the war department in many weeks, was contained in the two lists issued today. Although the casualties numbered 998, of which 492 were in the morning list and 506 in the afternoon, there were only 18 Indiana men included.

The combined casualties were divided as follows: Killed in action, 133; missing in action, 210; wounded severely, 322; died of wounds, 30; died from accident and other causes, 5; wounded, degree undetermined, 288; died of disease, 1; died of aeroplane accident, 1.

Hoosiers in the two lists follow: Killed in action, Private Leslie Thomas, Michigan City; died of wounds received in action—Private Benjamin R. Hannel, Cass; wounded severely—Private Frank Celichowski, South Bend; Private Isaac Brooks, Indianapolis; Private Russell W. Coon, Gary; Private Joe Kelly, Madison; Private Mollie Fleetwood, Kirtz; wounded, degree undetermined—Corp. Isaac L. Godsey, Richmond; Cook Charles J. Winter, Elkhart; Private Joseph J. ## What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.

With only five weeks of registration left for the lagging two thousand voters of Rush county who have not yet complied with the necessary laws in regard to their voting in the November election, the registration board is working out a plan whereby the county's registration may be completed in the required time.

Although the last week has brought a notable increase in the number of registrants, yet there are only 3,500 of the 5,600 voters tabulated as having filled out their registration blanks. The board stated today that the eleventh hour rush would doubtless necessitate the keeping open of the office at night for the final two weeks of the registration.

**Two Thousand Are Being Sent to Farmers This Week, Calling Attention to Campaign.**

**DEAL WITH ALL THE FACTORS**

Two thousand letters are being distributed among the farmers of Rush county this week, relative to the planting of a bumper wheat crop for 1919.

Meetings which have been held at intervals in various parts of the county since the harvesting of the wheat crop was effected have disclosed the fact that each farmer in the county contemplates the planting of such a wheat crop for next year as he never before thought of taking care of. In order that each agriculturalist may receive a certain amount of expert advice from national wheat men, letters concerning the best manner of the preparation of the soil and the planting of the crop will be sent to each farmer in the county this week.

Certain treatments of the wheat for smut will also be suggested in the farmer letter.

**MANY SUITS ARE DISMISSED**

**Alice Wolf and Charles Jones, Arrested Aug. 19, Released When Case is Nollid**

There was no trial in the circuit court today on account of the case of the state against William Dugan, accused of a serious offense, being continued on motion of the state because of the illness of a witness. The civil suit set down for today was not ready for trial.

A number of cases were dismissed yesterday and the issues in other cases joined in preparation for the term's business.

Alice Wolf and Charles Jones, arrested August 19 for a serious offense charged in an affidavit, were released from jail after the case was nollid by the court on the motion of the prosecuting attorney.

Robert A. Cameron, who has been divorced by his wife, was ordered to appear in court next Saturday morning at nine o'clock to show cause why he is not making the weekly payments, as ordered by the court, to support his two minor children. It is alleged by his former wife that he is back \$175 in the payments.

The case of the Federal Finance Co. against Will L. Brown on a note for \$600, was dismissed and the costs paid, a settlement having been arranged the day the suit was filed. The same action was taken in the cases of the Milroy Stock Co. against the C. C. & St. L. railroad on a claim for \$125, and William A. Alexander against the C. I. & W. railroad on a claim for \$319.

The case of the Union State bank against Joseph E. and Rebecca A. Hardin and William E. Brown, on a note and for the foreclosure of a mortgage, was dismissed and the costs paid. Similar action was taken in the case of the Armour Fertilizer works against Robert A. and William H. Krames, on a note for \$2,350.

The suit for support filed by Nellie Walker against Hughes D. Walker, was dismissed by Mrs. Walker at her costs. A similar suit filed by Bessie Boren against Clarence Boren, who is now in the army, was likewise dismissed by Mrs. Boren at her costs. A divorce suit filed by Mr. Boren is pending.

The court approved the sale of the real estate of the Rush County Fair association, and the receivership proceedings will be settled in a short time.

**SAMUEL FINNEY, SR. DEAD AT AGE OF 65**

**Expires Following Short Illness Due to Heart Trouble—In Business Here 37 Years.**

**FUNERAL THURSDAY, 9:30 A. M.**

Samuel Finney, Sr., 65, died yesterday evening at 3:45 at his home in West Third street, following a short illness which resulted from heart trouble.

The deceased who had resided in this city since 1881, came here from Ohio, of which state he was a native, and for thirty-seven years had been engaged in various enterprises here. Aside from his widow he is survived by two sons, Samuel Finney, Jr., and Newell Finney, and two daughters, Mrs. Harry Randall of this city and Mrs. Eli Martin of Raleigh. One brother, Potts Finney, of Ripley, O., and six grandchildren, also survive.

The funeral services will be conducted Thursday morning at the residence at nine-thirty, after which burial will be made in the East Hill cemetery. The Rev. John T. Aikin, pastor of the First United Presbyterian church, will have charge of the services.

—Mr. and Mrs. Jesse Downey and family left yesterday for their home in Sioux Falls, South Dakota, after a visit here with Mr. and Mrs. L. S. Downey and family.

**In The Swim**

There are many Americans whose loyalty has stood every test, and who yet feel unable to reconcile themselves to our participation in the European conflict.

They recognize that assaults have been made upon our prestige. They feel that the honor of the Republic has suffered insults against which a merely verbal protest would be only a confession of weakness. They are spending their utmost effort and resources in this gigantic encounter, and yet they feel an abiding regret as they see us drawing farther away from the tranquil isolated in which we viewed with the security of spectators the moves and countermoves on Europe's chess-board for over forty years.

"This aloofness can never come again," is their complaint. They do not realize that it could not have been preserved under any conditions. We have not always been rich.

The spectacle of latterday prosperity misleads us. We forget that it is the latest thing in modernity. A few years ago this was the pioneer nation and pioneers are poor.

So short a time has it taken us to become familiar with surplus that we overlook its novelty. Then we had barely enough for ourselves we exported nothing, and our intercourse with other nations remained about zero.

Then came the overflowing cornucopia, and export trade. We lost our political detachment, and we are unlikely ever to regain it.

Of course, it is possible for us to make export trade illegal after the war. In a comic opera nation it could be done. With us it would mean the ratification of a tyrannous principle more onerous than any enactment of pre-revolutionary Russia. Such surrender of our bodies and our goods would mean serfdom.

Since, then, we cannot refuse to rub shoulders with other nations we may as well make their acquaintance.

The founders of the Church were commanded to fraternize with the Gentiles, here we find a same precedent. We may like our neighbors better than we think, and they will not like us the less if we show ourselves able to protect ourselves from any aggression to which such intercourse might make us liable.

**The Fourth Liberty Loan**

The campaign for the Fourth Liberty Loan begins September 28 and closes October 19. While the amount has not yet been announced, it is generally conceded it will be for a larger amount than any of the preceding loans. The American people, therefore, are called upon to raise a larger sum of money in a shorter length of time than ever before. There is, need, therefore, for prompt action—prompt and efficient work and prompt and liberal subscriptions.

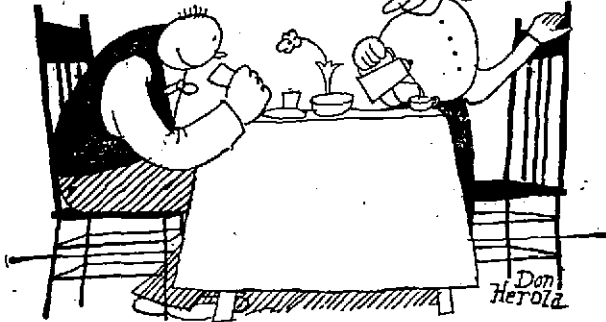

We have a great inspiration for a great effort. The news from the battle front inspires every American heart, not only with pride and patriotism but with a great incentive to do his or her part. There is no

**ONE-MINUTE FOOD TALKS**

This is delicious

I got the recipe at the food club

**WHY JOIN A FOOD CLUB?**

Why have food clubs? Why have an army? Why not let anybody who dislikes Germany just go over on the first boat he can catch and throw missiles at any German who comes around?

Well, in the first place, that is not the way Germany is FIGHTING US. We have to send an organized army to meet an organized army.

And don't you think for a moment that the German home folks are not organized. We have got to get organized American home folks to fight organized German home folks.

"I fear the disciplined people behind the German army," said Lloyd George. "I fear the rationed German family, and the determination of the German wife and daughter and sister to stand and starve so that their fighting men may be fed. I fear it more than the German Imperial Army itself."

There are no ration cards here. There are few rules. Just the willing, patriotic, generous spirit of

American people is depended upon—for the sum total of necessary food saving.

But SOME sort of mass formation is necessary. Some form of organization for FOOD SAVING. A crowd with which to move. A gang. A group, and a group spirit.

Hence the U. S. Food Clubs, which started in Indiana, and have spread the nation over.

One reason why there should be food clubs now—instead of poetry clubs and pink teas, by the way—is that food conservation takes brains. It takes knowledge. It takes study. It is hard to learn how to do it BEST. The food clubs can thresh out reasons and recipes. The members can exchange ideas and information.

If you don't belong to a food club, hurry and join one. Go to the regular monthly meetings. If there isn't a food club in your neighborhood, start one. Don't try to fight the food fight ALONE. Get into a gang. Join a food club today.

shirking, no shifting of the individual burden, no selfishness by American soldiers in France: there should be none here. There is the harder part, but at least we can do our part as promptly and loyally and efficiently as they do theirs.

Up to March, 1914, we took a fatalist's view of hog-cholera. The annual loss was staggering, but we didn't think of preventing it.

Then the Agricultural Department went after it.

The loss in 1914 was estimated at about 7,000,000 animals. In March 1918 it was around 3,000,000. The former figure represents the total consumption throughout the country for 37 days; the latter for 16 days.

In two or three years at this rate the loss will be negligible, if not zero.

**THE U. S. VOLUNTEER**

The following poem has been submitted for publication:

I'm just an every day soldier, friends  
And I've been here just one year  
But of this one thing I'm certainly proud  
I'm a U. S. volunteer.

When we left our homes in Rushville  
And the folks we love so dear  
A cheer went up from the gathering throng  
For the U. S. volunteer.

But it seems to me at present  
That the people from far and near  
Are giving a hand to the drafted man  
And forgetting the volunteer.

The papers say they select them  
But of the papers we have nothing to fear  
For Uncle Sam will be a friend  
To the U. S. volunteer.

But none of us are kicking  
But it does seem mighty queer  
That the credit all goes to the drafted man  
And none to the volunteer.

But when we cross the ocean  
And the slaughter of Huns draws near  
It will be a safe bet that the man in front  
Is a U. S. volunteer.

I oftentimes read the papers.  
But they always seem to sneer  
And give a column to the drafted man  
And none to the volunteer.

But when I grow old and feeble  
And the end is drawing near  
With pride I'll look back yonder  
On my youth as a volunteer.

So take this tip from me friends  
Don't wait till the end is here  
Don't wait till you have to be drafted  
Be a U. S. volunteer.

The piece work department of the American Red Cross in the Hotel Victoria, at Naples, Italy, is now providing 500 women who are members of soldiers' families with work to do at home.

## CUBS ARE PICKED TO WIN THE SERIES LIVING EXPENSE VASTLY INCREASED

National Champions Believed To Have Edge On Red Sox In Nearly Every Department

PITCHERS MOST DEPENDABLE

If Cubs Win, Will Be First Time Boston Entrant In Baseball Classic Ever Lost

(By H. C. HAMILTON)

(U. P. Staff Correspondent.) New York, Sept. 3.—The last world's series until the war has been won, and probably the last world's series the country ever will witness under present regulations probably will be laid away to the credit of the National League. And, if such is the case, it will be the first time in the history of a Boston entrant in this annual fall classic of baseball ever defeated for the world's championship.

Tessie and the Boston good luck pin seem doomed to defeat by the Chicago Cubs.

Comparisons of the two clubs leave only a light margin of advantage, but the offensive power of the Cubs overlaps the defense of the Red Sox to such an extent that on paper they are the natural victors. Of course, a series such as the world's series always turns out to be a little different from what the final comparisons of the teams, but the consistency with which the Cubs have hammered their way to the top, the inside baseball Fred Mitchell makes his men play, the cleverness of the Cub's pitching staff and the persistently good attack of the club makes it a knitted organization that sticks out over the Red Sox.

Each of the clubs has had good fortune throughout the season. Practically the entire lineup with which each started is intact. The loss of Gover Cleveland Alexander, which was expected to knock the pennant hopes of the Cubs into a cocked hat, proved to be only a slight difficulty. And, aside from that the loss to the Cubs of the season has been small. Pete Kilduff was called into the army, but his place was more than filled by Rollie Zeider and Charley Pick.

The Red Sox suffered a severe blow when Dutch Leonard and Ernie Shore were derelicted from the club, but Ed Barrow found in Sam Jones and Joe Bush two pitchers fully capable of taking their places. So good has been this duo of pitchers that Babe Ruth hasn't done his usual share of the season's pitching, but instead has been used in the outfield where his batting could count more.

Comparing the infields of the two clubs gives a wide margin to the Cubs. Fred Merkle stands out over Stuffy McInnis for the first time in the careers of the two players. McInnis undoubtedly is going back while new life seems to have been injected into the veteran Merkle. He is hitting and fielding better than he ever did before. Merkle's hitting has dropped woefully but he is still the brilliant and heady fielder of yore. The difference, however, isn't great enough to place him in Merkle's class for Merkle fields well enough to be in the front rank and his hitting is the point of his greatest value.

At second base there is nothing of much importance to compare. Neither team has an extraordinary workman in that spot. Dave Sheum is a fair fielder, but a weak hitter in spite of his work for the Red Sox with his stick. He never was able to hit in the National league and this fact will count when he faces National league pitching. Rollins Zeider once was one of the American leagues greatest infielders and he still is something of a star, but his speed is deserting him. Charley Pick is a youngster, a fair hitter and only a fair fielder.

At shortstop there is nothing to the comparison but the Cubs. Charley Hollocher is not only the season's sensation, but he probably is the greatest shortstop to come to the big leagues in a decade. Although he is spending his first year in major league baseball, he is hitting well over 300 and his fielding is nothing short of marvelous. Everett Scott, the Sox shortstop, is a fine fielder, but an atrociously weak hitter.

Jack Joffey for the Sox and Charley Deal for the Cubs compare well.

Ordinary Necessities in Belgium Have Advanced From 200 to 500 Percent Since War

A COMPARISON OF PRICES

American Red Cross is Still Feeding Thousands of Women and Children in Stricken Country

By WEBB MILLER  
(U. P. Staff Correspondent.)

Paris, Aug. 15. (By Mail).—According to detailed information just received by Col. E. P. Bicknell, commissioner for Belgium of the American Red Cross, the ordinary necessities of life in the occupied districts of Belgium have increased in price from 200 to 1500 per cent since the beginning of war. Increases are based upon comparisons of prices between July 1, 1914 and July 1, 1918.

Some of the increases by percentage are:

Canned vegetables	1500
Pork	1475
Sugar	1300
Peas and beans	1200
Fresh meat	1010
Shoes	900
Tobacco	900
Butter	674
Bread	200

Owing to the blockade and the confiscation of every scrap of cotton by Germans, cotton thread is very scarce and is sold by the yard. Leather is practically unobtainable, and wooden shoes with felt tops are generally worn. Sugar and rice, when obtainable, cost approximately \$1 per pound. Eggs are 30 cents each.

Despite entrance of America into the war, the American Red Cross Commission for Belgium is practically feeding thousands of old men, women and children throughout occupied Belgium. Work is carried out through agencies of the Belgian government, and is saving from starvation many hundreds of Belgians.

In comparison with the enormous rises in the cost of living, wages of laborers have increased only about 100 per cent. Miners' wages have increased 65 per cent.

Deal is the better hitter, but Coffey is far the better fielder and base runner. He is a veteran of good minor leagues, with a wealth of experience which makes him a most valuable man. He is a splendid fielder and dangerous but not frequent as a hitter.

Deal is a good fielder and a hard hitter. His blows, while not many, usually come at opportune moments and are of the long variety a great deal of the time.

The outfield gives a slight edge to the Red Sox with Strunk, Hooper and Whitman. Hooper and Strunk are two stars of the game while Whitman is "good enough" in these war times.

The Cubs will depend on Paskert, a veteran, Flark, a mediocre performer, and Mann a brilliant player at all times.

Vaughn, Tyler and Hendrix, that sterling trio of fingers which has pitched the Cubs into a National league championship, probably will lift the club into a world's title. Vaughn and Tyler are left handers far above the average, while Hendrix, burly right hander, has had his best year this season. Phil Douglas will be called upon for any further right hand duty.

Ruth, Mays, Jones and Bush the box-work for Ed Barrow with a chance that Ruth also will work in.

On the quartet, Ruth will have the best chance against the Cubs. He is a star in any company and will defeat the Cubs as surely as he starts against them. Of the others little can be said as opposed to Fred Mitchell's champions. Bush's skill probably will be the greatest obstacle, while May's cunning doubtless will be easily overcome by the Cubs.

Catchers compare favorably with the Red Sox, having an edge in that they have two stars Agnew and Sebang, while the Cubs will depend wholly upon Kilfifer. The latter is looked upon in some quarters as the best of the National League backstops but he is not yet placed in the class with Sebang.

## An Engine Is No Better Than Its Cylinders and Pistons

You don't have to send your Ford out of the City to have it Re-bored.

Having recently installed in our shop a new machine for re-boring Ford motors we wish to call your attention to the fact that we are now prepared to re-bore and fit new over-size pistons and rings in your Ford motor.

These are the results you obtain by re-boring

You increase power from 10 to 50 per cent.  
You eliminate that elusive knock.  
You stop the escaping gas around piston rings which abnormally heats the crank case.  
You stop the admission of auxiliary air past the piston rings which dilutes the mixture.  
You use less lubricating oil.  
You use less gasoline.  
You drive slower on high gear.  
You take hills with perfect ease and grace.  
You attain greater speed on level.  
You eliminate the over-heating.  
You stop fouling your plugs.

Our Price is Reasonable.

Bring in your motor and let us fix it up.

## Finances of Council Are In Good Shape

Annual Report of Woman's Organization Reveals \$326.80 in Treasury at End of Year. Committee Appointed to Employ Visiting Nurse in Place of Anne Straight.

Woman's Council was improved during the year of 1917-18, is disclosed in the annual report of the treasurer, Miss Anna Bohannon, at the meeting last night, which revealed the fact that there is now a balance of \$326.80 on hand as compared to the balance of \$225.41 shown in the annual report made the year before. With the beginning of another year's work, the difficulty of finding another nurse to take the place made vacant with the resignation of Miss Anne Straight, who has discharged the duties of the visiting nurse in this city for almost two years.

Mrs. Straight will leave this week and is making plans to enter war work immediately. She has been a member of the American Red Cross nurse organization for a number of years and has made application for overseas service.

Mrs. A. G. Reeve has been appointed chairman of the committee to select a successor to Miss Straight and will visit various institutions in the state this week in an attempt to have the vacancy filled at the earliest date in order that the nurse problem in the county may not become too serious.

The annual report which was submitted at the latest meeting is as follows:

## Notes on Activities Of Franchise League

### Suffragists Lose Loyal Friend

In the death of Senator Gallinger of New Hampshire suffragists lose a friend and supporter of many years standing. He was the type of legislator suffragists are proud to have directing their measure in congress, for he was a splendid parliamentarian, an honest upright man of keen intelligence and conscientious ability. He is replaced as Republican floor leader by Senator Lodge of Massachusetts, a pronounced anti-suffragist and a standpat Republican.

### Novel Suffrage Campaign

Denver, Colorado—The Denver Post, the largest daily newspaper in Denver, has procured several thousand signatures to a petition urging the passage of the federal suffrage amendment. The paper advocated the amendment in some strong editorials, placed in its columns a short form of petition, and asked the people who were interested to sign it and transmit it to the Denver Post. Several thousand readers cut out the petitions, signed them, and sent them in to the editor of the paper. These petitions have been sent to the senate.

### Men Carrying Petitions

Peru, Ind.—Men carrying petitions and pushing the membership drive for the Woman's Franchise League of Indiana. This is what Mrs. Olive Beldon Lewis, chairman of the southeast section for the drive, reports. "Each branch of suffrage work directly effects and assists every other phase of the organization," said Mrs. Lewis. "Men who have attended the political conventions remember the representative of the Woman's Franchise League, of Indiana who spoke before the convention, and not only voluntarily join the league but urge their friends and acquaintances to do so." After I had spoken at the Harrison county fair in Corydon, several men came to me volunteering to carry the petitions and secure signatures. The old Constitutional elm at Corydon looks down today as in 1916 on interesting and progressive actions in Indiana.

### Progress Of The Campaign

At the end of the third week of the two months' drive, reports of the membership and petition campaign are most encouraging. Fifty-nine counties of the state are well started on their drives. Mrs. Chas. Butler, chairman of the northeast section, reports all but four counties in her

section at work. Attractive headquarters have been opened by the local league in a downtown office in Peru, and the campaign in that city was launched with great enthusiasm at a street meeting Saturday night when Mrs. Mabel Dunlap Curry of Purdue University spoke before a large and interested audience. Mrs. Curry also spoke in Marion Saturday afternoon to start the Grant county drive. The women of Lafayette have established a Community House exclusively for war service, and the first use to which it has been put has been as headquarters for the membership and petition campaign of Lafayette league. Mrs. Thos. A. Stuart who is chairman for the drive reports that her workers are meeting with great success in their house-to-house canvass. Numerous other cities have opened downtown headquarters among them being Indianapolis, Ft. Wayne, and Bloomington. Miss Carolyn Shoemaker who has the northwestern section with the most territory to cover started the campaign in Cass county Monday with talks for the local workers and the teachers' institute. This week she is working in Jasper, Benton, and Newton counties, and with the assistance of Mrs. G. R. Douglas, 10th district chairman, is assisting these leagues to start their campaigns.

—Mr. and Mrs. Eli Martin and children of Raleigh are the guests of relatives in this city.

## AMERICAN STEAMER ONEGO IS TORPEDOED

Twenty-Nine Persons Saved and Twenty-six Are Missing—Captain is Drowned.

### ONEGO OF 3,636 TONS GROSS

A British Port, September 3.—The American steamship Onego has been torpedoed. The vessel foundered Friday night. Twenty-nine persons were saved. Twenty-six are missing. Bodies have been washed ashore. The captain of the Onego was drowned. His body has been recovered.

The Onego was 3,636 tons gross and was built at Belfast in 1880. She was owned by Barber & Co., of New York. The vessel was 400 feet long, thirty-nine feet beam and twenty-one feet deep. The Onego was formerly the S. V. Luckenbach, and before that was known under the names of Brooklyn, MacPherson, Oudam and British Queen.

## SEASON OF DARK GLASSES AT ZENITH

Many Sufferers Forget Resolution to "Stick it Out" at Home and Flee to Resort

### DAMP WEATHER A DRAWBACK

The days of dark glasses and sneezes have reached their zenith and Rushville "hay fever customers" who resolved to "sneeze it out" at home this summer—as a war conservation measure—are one by one forgetting their resolutions and hastening to one of those havens where the mention of rag weed does not strike terror in their hearts.

To the woe-be-gone, dismal expression which each hay fever victim wears in addition to the proverbial red nose, there has been added another shade of sadness brought on by the prolonged damp weather which has brought forth the sleeping asthma tendencies, thus adding insult to injuries among the sufferers of the annual disease, causing them to forget their patriotic plan for patient suffering and flee from the climate.

## THERE WITH GRENADES

With the American Armies in France, Aug. 13. (By Mail)—They call him "the corporal who was there."

He went over with a raiding party to the German third line trenches. While the rest were quiet or scared, he seemed excited and happy.

He led the party in exploring German dugouts. Into the first one he found, he yelled, "Are you there?" Guttural sounds came out, and he let them have some grenades, after which he blew up the dug-out while his pals were playing safer and hunting a defensive trench to fight in.

Alone, he set out to find another dugout full of Germans. He did, and repeated his first performance, ignoring the falling shells. Then he started for home, figuring that blowing up two German dugouts with Germans in them was a good enough night's work for any doughboy.

On the way across No Man's Land, he found two wounded comrades. Through a barrage, he carried first one, and then the other to the American trenches. Then a shell dropped within a few feet of him, exploded, but did nothing worse than give him shell-shock.

When he got out of the hospital, he modestly wondered why he was called "the corporal who was there."

## CAR OVERTURNS AT A CURVE IN THE ROAD

Irl Landis, Age 18, is Killed and Milton Stevens, Seriously Injured Near Marion

### RETURNING FROM OHIO TRIP

Marion, Ind., Sept. 3.—Irl Landis, age eighteen, son of Mr. and Mrs. Harry H. Landis, of this city, was killed and Milton Stevens, also of Marion, was seriously injured yesterday afternoon, when an automobile in which they were riding overturned at a curve in the road near Pennville, in Jay county. Three other occupants of the machine were bruised about the body.

The men were returning from a trip through Ohio. It is thought that Stevens, who was driving the machine, misjudged the danger at the curve and failed to stop the speed of his car in time to prevent the accident.

## SEPTEMBER QUOTA LEAVES

Entraining Of Indiana Troops During Five-Day Period Begins.

Indianapolis, Ind., Sept. 3.—The first of the state's draft quota for September was entraining today for various camps. Four thousand, four hundred and seventy-six men will leave during the five-day period starting today. Three thousand, three hundred men will go to Camp Taylor, and 1,000 men to Camp Grant, Ill. One hundred and seventy-six negro soldiers go to Camp Custer, Mich. This practically exhausts Class I men in Indiana, according to Major Robert Baltzell, state draft officer.

## Days Pickings

## GERMAN PRISONERS TAKEN IN ONE DAY NUMBER 10,000

Continued from Page One  
ing troops with all possible speed. "South of the Arras-Cambrai" railway, the British made advances this morning, registering an advance of about 4 miles on a 20-mile front. Queant, Buissey, Doignieu, Vela, Doquigny, were all taken.

The capture of Lens by the British will prove a hard blow to the Germans because it is the junction of a number of railroads and also the dominating city in a large coal region, which as proved of immense value to the enemy.

Lens has not been in possession of the allies since the Germans first overrun northern France. Allied troops in previous campaigns have fought hard for the city, which is in the heart of the coal and iron region, but succeeded only in drawing their line close to the suburbs. Allied success in this territory will be felt keenly by the enemy, who has been working the mines to obtain much needed supplies of fuel, which otherwise would have been transported a long distance.

Prisoners taken by General Mangin's French and American forces declare that preparations are being made for a retreat as far as St. Quentin. In the region of Ham, the enemy lines are reported to be choked with transports and troops moving to the northeast, indicating that the retirement already may be under way. Great fires are lighting the sky, showing that stores are being destroyed. Apparently the enemy hopes to remove all material possible and to strengthen his defenses between Cambrai and LaFere in an effort to stop the allied rush on this part of the old Hindenburg line.

The English Monday drove a wedge into the German lines with the taking of Eperigny and strongly fortified enemy positions northeast of that town. The Douai plains now stretch before the attackers, with no natural defenses to overcome such as have been surmounted in reaching their present line. In the same sector, to the south, English and Scotch troops are advancing with Queant as their immediate goal, capturing many towns and villages, including Noreuil.

Thousands of prisoners passing to the rear testify to the superiority of the British attack. The number of units represented indicates the haste with which the Germans used reinforcements in an effort to stave off the disaster of a completely broken line in the defenses protecting the cities of Douai and Cambrai. The loss of these cities would deprive the Germans of two of their most important bases in northern France.

On the Lys front the British forces continue to gain ground in the direction of Estaires. Here, it seems probable that the Germans plan to fall back to a line through Armentieres, with the defenses of the Hindenburg line in their rear, which the British must break through before reaching Lille.

On the French front the Germans are withdrawing northeast of Soissons. The entire Soissons plateau is in the hands of the Franco-American troops under the command of General Mangin. The French Monday were advancing above Vauxail-

lon, where late reports said the Germans were burning ammunition dumps preparatory to a further retirement, probably to the Chemin-des-Dames. As the later position is menaced by the French progress toward Vauxailon, a still further retreat by the Germans is expected. The operation north of Soissons, which started six days ago, has been one of the most stubborn battles in which American forces have been engaged.

Localization in the activity of the French infantry in the last two days has given the appearance of a de-

crease in the pressure on the German lines from the Somme to Soissons.

With the British Army in France, Sept. 3.—Fighting all along the Dro-court-Queant line continued favorable to the British today, according to all reports received at headquarters.

The British are progressing southeast of Cagnicourt. They are astride the railway west of Queant and east of Riencourt. The enemy is offering stiff resistance west and northwest of Queant.

# A Call To Duty

From the battle fields in France there comes an unspoken call that should find an answer in every American's heart.

The recent great events in Europe, the successes of American arms on the fields of France and Belgium should spur every American to greater effort. To do your full duty we must make every sacrifice and exertion to aid the cause for which our soldiers and sailors are fighting, for which our soldiers and sailors have died.
